Carrie, Provided that the indirect impacts to groundwater supporting adjacent wetlands at the entrance of the driveway are avoided with a barrier wall, EPA has no objection to issuance of the NWP for Lot SS811. Thanks for your time on this matter.

Hi Sarah,

Checking in on the Lot SS811 project ... any feedback, or can you provide some emailed affirmation that the revised plans are consistent with what we discussed in the field?

Carrie Sheata needs some type of backup concerning EPA review.

Thanks,

Chris

Sarah,

Here are the revised plans for the Lot SS811 driveway and utilities ... if this plan meets the objectives defined by EPA in the field could you please let Carrie Sheata know so she is able to process the application.

Thanks,

Chris
